

SCHOOL ANNUAL REPORT FOR THE YEAR 2020-21

The school year 2020-21 has been a year unexpectedly unusual and extraordinary. I am overwhelmed by the commitment of our stakeholders to the success of our school. In the spring of 2020, we all had to face a 'never before' situation and learning came to a halt with schools shut down due to pandemic Covid-19. In the face of such challenging time, our teachers' community rose to the occasion and decided to provide online learning to our students.

In doing so they had to make numerous adjustments with their own personal routine. They had to work harder than usual exploring teaching material, preparing their lessons and making videos etc. Many of them learnt how to use new technologies with a view to imparting the best knowledge to their students in the best possible manner. Their sole aim was that learning should never stop.

The staff of a school is the most valuable resource. The school has an enthusiastic and dedicated team of teachers in the Senior Secondary, Secondary, the Primary and the Pre-Primary sections. In addition, we have Non-Teaching and Support staff. Their coordination with each other even in the most trying times is what enables the school to function smoothly and grow stronger with new perspectives.

I would like to thank the vigilance and cooperation of our staff and families in spite of the challenges of the ongoing pandemic.

The year started with excellent results of our class 10 students in the CBSE examination. We were, once again able to secure 100% results in the Board examination. Our students performed brilliantly well in different subjects. We congratulate these students for their excellent Boar results and extend our warm wishes for their bright future.

All kinds of extracurricular activities came to a halt due to pandemic. Still we organised several online activities for our students so that they feel relaxed under the traumatic circumstances. We encouraged the students to participate in various extracurricular activities such as drawing, cooking, dance, speech etc. which they could carry out at their home and to motivate them their videos were put on social media and websites. Large number of students participated in these competitive activities with lot of enthusiasm.

We also arranged a talk with Mr. Raghav Juyal, the renowned choreographer and TV artist from Uttarakhand.

Future Plans:

We inspire the joy of learning by fostering the culture of creativity. We wish to see our students growing into ethical, respectful, happy and purposeful citizens of the society. We recognize the child as a natural learner and knowledge as the outcome of the child's own activity.

In order to encourage this natural learning instinct, we have plans to provide the students with ample opportunities to recognize and sharpen their skills. We plan to organise various learning oriented activities for all categories of students.

To build up the physical strength, we plan to accommodate number of sports activities in our regular school time-table.

Personality Building Programmes (Training, Seminars, Orientation and Counseling):

We believe that in order to attain greater heights and excellence in any field, training sessions are very important. Like the past years, we are going to organise workshops, seminar and counselling sessions for both the teachers and the students. With a view to sharpening the skills of the teachers and strengthening the academic growth of the students we plan to conduct workshops and talks by some renowned personalities from the field.

As we are still passing through an unprecedented crisis, we are confident that we will successfully come out of it by our strong will and cherished values.

Before concluding this annual report, I would like to assure all the stakeholders that the pandemic has not shaken our patience and will power. Our efforts will go stronger and stronger with the passage of each day. Our goals are great and equally great are our efforts and will to achieve them.

I render thanks to our Management, our teaching and non teaching staff and my students and parents who have been with us in all circumstances, in all our activities with maximum support and co-operation. With this I conclude the report.

Thank you

Santosh Kumar

Principal
